

# 100 DAYS OF A PANDEMIC

## By the Numbers

Between March and June 2020, **CanWaCH connected with more than 100 Canadian organizations and global partners** to understand their concerns, learn about their responses and document their recommendations.

Below is a high-level overview of what we heard.

### Responding

**86% of organizations surveyed** said they are currently responding to COVID-19. **7% of organizations surveyed** anticipate responding to COVID-19.

### Funding

# 75%

of organizations surveyed said that they had received or were actively seeking new program funding related to COVID-19.

Primary anticipated funding sources include private donations (74%), funding from the Government of Canada (69%) and others (41%).

# 80%

of organizations surveyed are or will be reallocating or diverting funds from other programs in order to respond to COVID-19.

### Partners

# 85%

of organizations surveyed report collaborating with other organizations in order to deliver COVID-19 responses.

# 70+

**countries**

Organizations surveyed report collaborating with over 100 partners across 70+ countries, including Canada.

# 78%

of organizations surveyed are engaging with national or regional governments to seek guidance on COVID-19 response.

### Activities

Organizations responding or planning to respond to the impacts of COVID-19 are in **74 countries and 12 geographic regions, including within Canada.**

# Top 6

countries with most projects implemented globally: Haiti, Kenya, Ethiopia, Uganda, Tanzania and Canada.

To implement their activities, organizations surveyed are following guidelines or guidance notes from **national/regional governments (96%), WHO (87%), civil society (74%) and others (13%).**
