# CanWaCH Project Explorer

Showcasing Canadian Efforts in Global Health and Gender Equality

DATA | MAPS | IMPACT STORIES

Key Features

- **The CanWaCH Project Explorer** has an index of over a thousand projects showing **key details, maps, and results highlights.** Learn more about how we code our data **here**.
- All data and visuals are **open-access,** and **exportable** for use in research, planning, reports, presentations and more.
- **100% bilingual** (English & French) tool, useful to:
  - **Search projects** by organization, location, topics and keywords. You can also search by currently active or completed project status.
  - **Explore** topics of interest and gain insights into global development.
  - **Find partners** to enhance collaboration for improved impact.

Who can contribute?

Any Canadian or international organizations working on or funding global development, humanitarian and gender equality projects with a **link to Canada** can contribute to the Project Explorer. No membership is required.

What can the Project Explorer tell you?

- Who is implementing and funding programs internationally
- Where projects are being implemented

A ❖ **CanWaCH** Initiative

In partnership with
Canada

- Which **areas of focus**, community groups, and populations are being reached by these projects
- The results and **impact** of this programming
- What project resources and tools were developed through these projects that are available for you to use (ex: surveys, articles, toolkits, multimedia, etc.)

…and much more.

Project Explorer in Action

- Take a deep dive into our **interactive reports** which detail the global health sector's collective impact, and critical next steps
- Explore **stories of impact** by Canadian actors and their partners around the world.
- Project Explorer recognized as one of **Canada's Top 100 COVID-19 recovery projects**

Adding your data is quick and easy!

You can share your data via a **downloadable data form** or contact us at **impact@canwach.ca** to add your data. Check out our **Frequently Asked Questions** to learn more!

Get on the map by sharing your data!

There are **1300+** projects across **158** countries in the Project Explorer already. Your contributions are valuable to the sector — we invite you to add your data!

What users are saying about the Project Explorer:

"The Project Explorer creates space for Canadian organizations invested in development programming in the global south to collaborate and share resources. The more partners we have sharing information, processes, and data, the greater impact our collective investments can have."
