

HALIMA AHMED DALEL

MATERNAL HEALTH NURSE

"I am motivated because I know how acutely needed the services of the Mother and Child Hospital are in the community. At the end of the day, I know that these services are reaching people in need, and that mothers and children living in the camps are receiving quality health care. Women and children living in the IDP community are at the heart of what I do."

SOS Mother and Child Hospital

SOS CHILDREN'S
VILLAGES
CANADA

Project Purpose

The hospital was created to provide life-saving maternal and newborn health services to those living in the poorest conditions in the Mogadishu area.

Designed to Achieve

Provide a permanent healthcare institution that offers free and high-quality medical care, including mother-child health care to those most in need.

In the first half of 2022

58,159

patients
have
received
care

6,745

women and children
received inpatient care
and treatment in the
pediatric-wards, antenatal
& postnatal wards

2,974

child births were
assisted by skilled
attendants (nurses,
doctors and
midwives)
