## Publication

### Publication Details:

- **Publish Date:** December 2022
- **Data Source Extract from CanWaCH Project Explorer:** September 2022
- **Updated Version:** December 2024
- **Contact E-mail:** [impact@canwach.ca](mailto:impact@canwach.ca)

## Methodology Introduction

**CanWaCH Analytics Portal:** The CanWaCH Analytics Portal is derived from the CanWaCH Project Explorer (ProX) database. The purpose of the Analytics Portal is to summarize, and to visualise in aggregate, the information provided in the CanWaCH ProX database. The CanWaCH Analytics Portal is open source, with all data source files available for download.

**CanWaCH Project Explorer (ProX):** The CanWaCH ProX aims to capture and share the full spectrum of efforts in global health and gender equality with a link to Canada. Projects funded by any source (domestic or global) can be entered into the ProX.

Feedback may be directed to [impact@canwach.ca](mailto:impact@canwach.ca) in either English or French.

## Dashboard: Sexual and Reproductive Health and Rights

### Section 1: By the Numbers (Overview)

#### Definitions

- **"Projects"** refers to the total number of unique current and completed projects available in the CanWaCH ProX as of September 2022.
- **"Invested"** refers to the total dollar amount invested globally for the total number of unique projects.
  - Single-Country Projects: "Total Funding" is equal to the total project budget amount.
  - Multi-Country Projects: Project budgets are allocated to each country based on the 'budget percentage per country' provided in the ProX.

**Currency Note:** All dollar amounts are in Canadian Dollars (CAD).

- **“People Reached Directly”** refers to the total number of people directly reached through project activities
- **“Organizations”** refers to all the organizations involved in the delivery of project activities

## Filters

### Filter “Country”

The “Country” sort option filters all visuals to include all current and completed projects starting from 2010 for the selected Country.

**Country Note:** The Country visuals only includes countries that have at least one current or completed project in the CanWaCH ProX.

### Filter “Area of Focus”

Filter “Project Status” refers to the current stage of the project activities

- “Ongoing” refers to all projects that are labelled as implementation in the ProX for the selected project.
- “Completed” refers to all projects that are labelled as completion in the ProX for the selected project.

**Filter “Source of Funding”:** The “Canadian” sort option filters all visuals in the “Dashboard” by projects funded by the Government of Canada or any Canadian funding sources.

**Government of Canada Note:** Government of Canada is equivalent to Global Affairs Canada (GAC) or any previous iteration which includes Canadian International Development Agency (CIDA) and the Department of Foreign Affairs, Trade and Development (DFATD).

The “Non-Canadian” sort option filters all the visuals in the dashboard by projects funded by non-Canadian funding sources.

## Section 2 – Areas of Focus

### Visuals

#### 1. SRHR: A Comprehensive Approach

This chart provides an overview of the volume of unique projects per Area of Focus for the selected filter. The size of the circles relates to the proportion of funding invested per

Areas of Focus. The total number of unique projects per Area of Focus is also included in the tooltip (the information that appears when hovering over the project bar).

## 2. Investment Over the Years - Areas of Focus by Funding

This visual ranks the Areas of Focus by funding amount per year and overall for the selected country. The ranking includes all projects per country for each Area of Focus by year, and displays the total amount invested and total number of projects in the tooltip (the information that appears when hovering over the project bar).

## Mechanics

### Investments

The total amount investment (distribution amount) is distributed between all Area(s) of Focus per project. “Amount Invested” for an Area of Focus is the sum of all project budget amounts that are designated in the ProX for that Area of Focus.

### Projects

“Number of Projects” displays the total project count for each “Area of Focus”. A project with multiple Areas of Focus will be counted under each applicable Area of Focus. The total project budget is allocated between Areas of Focus based on the percentage distribution provided in the ProX.

**Project Note:** A project is displayed at the start year of the project in the visuals.

## Section 2 – Countries Supported

### Visuals

#### Analytical Portal Map

The Map depicts the countries with reported ProX projects. The tool tip (the information that appears when hovering over the countries) provides information on the number of projects and total funding per country.

- Country Level Analysis:  
In the Country visuals, a multi-country project is counted in each country where the project is being implemented (i.e. 1x per country). The total project budget is distributed between all countries for the project based on the budget percentage per country provided in the ProX.

## Section 3 – Population

### Visuals

#### 1. Total Population Reach

The Total Population Reach displays the reported total direct and indirect population count for projects included per projects with available population data for the selected filter.

#### 2. Population Reach, by Target Population, Age/Sex

The target population visual displays the proportion of projects specifying the gender and age categories of the target population for the selected filter. Please note that the ProX allows for the inclusion of 'Other' as a Gender option (i.e. female, male, other); however, as of September 2022, no projects have included data in this category.

#### 3. Population Reach, by Target Population Groups

The target population descriptors visual displays the number of projects specifying the target population descriptors for the selected filter.

## Section 4 – Organizations

### Visuals

#### 1. Lead Organizations – By Type

The Reporting Organizations by Type Chart illustrates the proportion of Reporting Organizations by type based on the selected filters.

- The Reporting Organization - Country displays the total number of organizations per selected filter by Canadian based or Non-Canadian based.
- The Reporting Organization - type displays the number of organizations per filter by category for all organization types.
- The Number of Organizations displays the number of organizations per selected filter.

#### 2. Lead Organizations – By Areas of Focus

The Reporting Organizations by Areas of Focus Chart illustrates the proportion of Areas of Focus per Reporting Organization based on the selected filters.

- The Area of Focus displays the Areas of Focus for a Reporting Organization based on selected filters
- The Number of Projects displays the number of projects per Areas of Focus for a Reporting Organization based on the selected filters.

### 3. Strategic Partners

The Strategic Partners chart displays details of Top Partner Organizations including the Organization Name, the Organization Country, the Organization Type, and the Number of Projects the organization is a partner.

## Disclaimer

The Project Explorer collects robust data across 20 primary data fields. Data is collected on an ongoing basis. Numbers are accurate to the time of publication, and may change as projects are updated. Data is collected and gathered in English and/or French through a variety of outreach methods as well as online searches, as follows: Data Drives; targeted outreach to organizations/institutions via electronic communication throughout the year; online search of organization/institutions' websites or published materials; and common data fields sourced from the Global Affairs Canada Project Browser. Submission of projects is voluntary and all data fields are optional, and as such, it likely does not reflect the entirety of Canadian work in global health and gender equality worldwide. Individual project information is not independently verified by CanWaCH.

The CanWaCH Analytics Portal has been created for informative purposes only. Users are encouraged to conduct independent analysis using the available data, and to review sample size and other contextual information before drawing conclusions. Through this portal, CanWaCH does not intend to endorse, recommend, or comment on specific activities or investments.

The designations and maps used and displayed do not imply the expression of any opinion whatsoever on the part of CanWaCH concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries.
